The request filed on 5/28/2002 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/173,531 is acceptable and a CPA has been established. An action on the CPA follows.

Claims 1-18 and 21-29 are pending in this application.

Claims 16 and 27 stand rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, for the reasons fully stated in Paper No. 13 (11/27/01).

(1) There is a minor mistake in claim 16 – at line 4, the comma between “retinoic” and “acid” should be deleted so that it reads “retinoic acid”.

(2) Claim 27 refers to the arsenic compound as a “prodrug,” i.e. a substance that is itself not active but produces an active metabolite. This is confusing because claims 1, 2 and 3, from which claim 27 depends, read on using arsenic compounds as the active therapeutic agent. Applicant cannot have it both ways: arsenic is either a drug or a prodrug.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are

Art Unit: 1616

such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13, 14, 15 stand rejected under 35 U.S.C. 102(b) as being anticipated by Stephens et al. (Ref. CN) for the reasons of record fully stated in Paper No. 13.

Applicant has not provided additional arguments or amendments with respect to this ground of rejection, and the rejection is therefore maintained.

Claims 1-6, 10-11, 13-15, 17 stand rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over CN 1079391 (Ref. AR) for the reasons of record fully stated in Paper No. 13.

Applicant has not provided additional arguments or amendments with respect to this ground of rejection, and the rejection is therefore maintained.

Claims 1-2, 4-5, 8, 13-15 stand rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Li et al. (Ref. BY) for the reasons of record fully stated in Paper No. 13.

Applicant has not provided additional arguments or amendments with respect to this ground of rejection, and the rejection is therefore maintained.

Art Unit: 1616

Claims 1-18 and 21-29 stand rejected under 35 U.S.C. 103(a) as being unpatentable over the combined teachings of CN 1121807, CN 1079391, Li et al., Stephens et al. and Shimotsuura et al. in view of Shen et al., Konig et al. and JP 51-88620 for the reasons of record fully stated in Paper No. 13.

Applicant has not provided additional arguments or amendments with respect to this ground of rejection, and the rejection is therefore maintained.

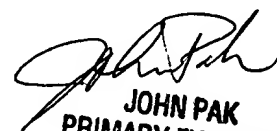

For these reasons, no claim can be allowed at this time. This Office Action is being made non-final to afford applicant another opportunity to advance prosecution.
